---

## SUMMARY

Motivated and graduating BSIT Senior (Class of 2026) with a robust base in Web Programming, System Architecture, Data Warehousing, and Network Concepts. Skilled in strategic project planning, cybersecurity, and software diagnostics. Seeking a hands-on experience to leverage software expertise and web application development excellence in a tech-driven environment.

---

## PROJECTS & EXPERIENCE

**Lead Full-Stack Developer and Database Designer | Capstone** May 2025 - December 2025

- Designed a secure, gamified learning system using PHP (OOP) and MySQL, implementing 3NF database normalization for data integrity.
- Configured local server environments (XAMPP/Apache) to ensure stable application hosting and network connectivity for 60+ test users.
- Implemented Role-Based Access Control (RBAC) and password hashing to secure user data, demonstrating adherence to cybersecurity best practices.

**Estate Logistics and Caretaker (Part-Time) | PGA, Pateros** June 2023 - July 2023

- Managed inventory logistics and supply distribution (food, maintenance items) across multiple facility hubs in Pateros, ensuring operational continuity for distinct animal care units.
  - Oversaw security and sanitation for a multi-story private estate, demonstrating high reliability and independence in a completely unsupervised environment.
  - Leveraged earnings from this contract to self-fund high-performance technical equipment for college development projects.
- 

## EDUCATION

**Bachelor of Science in Information Technology** September 2022 - Present  
**Pateros Technological College**

- **Relevant Coursework:** Information Assurance & Security, Database Management System, System Integration & Architecture, System Analysis and Design.
  - Demonstrated proficiency in System Administration by configuring local server environments (XAMPP) and managing database permissions.
  - Maintained strong academic standing in major technical subjects, particularly in Network Administration and Maintenance, and Information Management.
- 

## ADDITIONAL INFORMATION

- **Technical Skills:** PHP (OOP), MySQL, HTML/CSS, ReactJS, Git/GitHub, Java, Project Management
- **Tools:** VS Code, Affinity/Canva Designer (UI/UX), MS Office Suite, Cisco Packet Tracer
- **Languages:** English (Professional Working Proficiency), Tagalog (Native)
- **Certifications:** Introduction to Data Science, Cloud and DevOps Basics, SDLC
- **Interests:** Cinematic Photography, PC Specs Analysis, Japanese Culture and Technology
